Powered by the EU-funded SEED project, the European Silver Economy Awards aim to celebrate innovative ICT related products or services, in all sectors that help to improve the quality of life of senior citizens. It is essential to raise awareness of and strengthen the European Silver Economy.

The Awards Ceremony will be the opportunity to learn more about the nine finalists who will present their solutions and to award the three winning applications from the categories: public authorities, non-for profit organisations and for profit stakeholders.

It will be a perfect event to enhance networking among the different actors of the Silver Economy at EU level and to provide matchmaking opportunities.
